Can you handle this? Do we have photos on the website?

Hello,

Just following up on my previous email -- hope you can help. Thanks!

Hello,

I'm with the national public radio show [Science Friday](#), and we're covering the news of the Gold King Mine release on this week's show. I'm looking to get some high-resolution photos from the site that we can post with our story on our website. Would that be possible? Would love to get some by Thursday afternoon.

Thank you! Let me know if you have any questions.

Chau
